

Reviews—Secrets Lost

*I couldn't put it down! Reading **Secrets Lost** felt like walking into a beautiful painting.*

—Susan Sleek, Retired Art Teacher, Bellevue, WA

*I didn't stop reading until I finished—loved it.*

—Jean Boyle, Suquamish, WA

*This book reminds me of a good tapestry. Wonderfully woven past and present, all parts held together by the common thread of Morgan Hill. This book was a delight to read and I am hoping that we hear more of Morgan and her life in the cottage she has gone off to. As a former bed and breakfast owner, her guests brought back fond memories of my own and encouraged me to revisit that time in my own life. I recommend this book to everyone who enjoys a long walk and quiet moments to think!*

—Jarilyn, Port Ludlow, WA

*This book was a wonderful story. While reading **Secrets Lost**, I felt drawn to the characters, almost that I was a part of their journey. Some of the symbolism I could apply to my own life. The characters come alive to the reader. We all have an inner self and this book inspired me to keep in touch with myself. The story is a wonderful example of how very special people can be a wonderful gift. I love the book and have given several to friends and family and each person I gave it to loved it as well. Once I opened it, I couldn't put it down.*

—Diane, Bellingham, WA

*I have just finished reading **Secrets Lost** and the life-changing story floats around me like the soft, beautiful song Morgan Hill played in duet with Yuri. Like the book, I don't want the music to end. Thank you, Marcia Breece, for writing such a compelling, magical and enlightening story and for wearing your heart on your lovely self-knitted-llama-fiber sleeve.*

*I enjoy reading books that touch on the metaphysical, and **Secrets Lost** does just that. From that brief half-page Chapter 1, I found myself taking side trips into the ethereal realm. Yet, each time I wandered away, Breece pulled me back into the here-and-now of her protagonist's life, with all of its mundanities and struggles---many of which resemble our own. I liked the way this author tantalized me with possible romance and probable shamanic other-worldly experiences. She continuously grounded me in the real world, even as she subtly led me beyond it. And although this work of fiction does indeed evolve toward a climax, the end was not the end for me. That is, I found myself delving into cyberspace, attempting to satiate all the wonders that Breece had planted inside me.*

—Ardie, retired teacher, Port Townsend, WA

*Wonderful use of language. Great story line taking worldly experiences and moving them into a spiritual awaking. I highly recommend this book. It would be a great read for a book group. Lots to discuss!*

—Jamie, Port Townsend, WA

—Kindle Reader

*Not the type of reading I usually invest my time in. Saw this on the tabletop of a friend and I picked it up to peruse. She said, "Don't get attached to that as I am in the middle of it and no you can't borrow it!" I bought my own and have yet to regret it.*

—David, Carrollton, KY

*Not many books catch my attention and my heart so totally that I have to stop everything and read the book through in one day. This one certainly did. It touched my heart and my soul... makes me want to know that beautiful place, both the B&B, and the inner peace. Thanks, Marcia.*

—Mary Kay, Seattle

*A mystical tale that is a great read. It gives the reader insight into the author's life and her wisdom. The book is well written and the type of book that you want to curl up with and not put down until you finish reading it.*

—Gretchen, Bellevue, WA

***Secrets Lost: Secrets Remembered** hooked me! I didn't want it to end. It's difficult to explain the spiritual impact it had on me. But here goes...decades ago my guru led me through the same enlightening process as Morgan's. It was a very intense experience! But over the years I had muted it. This book brought it all back, including the heartfelt feeling of "I'm home." Breece so skillfully describes the process that a novice can understand it. A book everyone should read! The narration of the audio version I listened to is fantastic and adds to the experience.*
